2010 – present	Professor	University of Tsukuba, Department of Global Public Health, Faculty of Medicine

**Professional Societies/Activities**

- Board of Directors, Japan Society of Safety Promotion
- Board of Councilors, Japan Association for International Health

**Research Area/ Interests**

Public policies we see today are not necessarily evidence-based, so they are not as effective as they could be. These policies can be improved by scientifically-sound researches. Much of my research has focused on public health issues among socially disadvantaged and vulnerable population.
